Executive Architect Haas Virtual Studios

The University of California, Berkeley is seeking an Executive Architect to perform Programming, Design and Construction-Administration for reconfiguration of existing spaces in the Haas Business School Student Services Building into a suite of virtual studios for the production of streaming content including on-line lectures and seminars. As such, the project will involve a considerable A/V scope that will involve extensive coordination with the UC A/V vendor. The project will begin with a feasibility study to identify the optimal location within the Business School complex to host the virtual studios. The existing buildings are primarily constructed of cast-in-place concrete with heavy rebar, and the primary design challenge will consist of working around existing structural columns.

Deadline: August 30, 2023, 1:00 pm
