This session qualifies for 1 AIA LU|HSW – AIA CA will submit for you

A recording of this presentation will be made available on our website soon

# LEARNING OBJECTIVES

Describe how Residential occupancy classifications have been reorganized in 2022 Energy Code

Discuss updates to the 2022 Energy Code that set the stage for future all electric multifamily buildings, including Mandatory requirements and Prescriptive requirements involving heat pump space heating and domestic hot water.

Explain how "all electric" is a necessary, but not necessarily sufficient, requirement for achieving zero net carbon design, or ZNCD.

Recognize when solar photovoltaic and battery systems are required in multifamily buildings.
