

**REQUEST FOR QUALIFICATIONS:**  
**Architectural/Engineering Services**

The University of California at San Francisco Medical Center (UCSF Health), Design & Construction is seeking responses to this Request for Qualifications (RFQ) for Architectural/Engineering (A/E) services for inpatient and outpatient imaging equipment replacement projects at various UCSF Health campuses throughout the Bay Area. The services may be used for ongoing efforts at any of UCSF's main campuses such as Parnassus, Mount Zion, and Mission Bay; at smaller owned or leased sites; outpatient clinics in San Francisco and other Bay Area counties; and at affiliated sites such as Saint Francis Hospital, St. Mary's Hospital, Benioff Children's Hospital Oakland, and Zuckerberg San Francisco General; and for all project types depending on need and funded projects. As a result of this solicitation, UCSF Health may select up to five (5) or more firms to provide Architectural Services as described under Project Scope. Firms may be selected to work on imaging modalities that align with their experience on past projects. If a firm only has experience with 1 or 2 modalities, that does not necessarily disqualify a candidate from being awarded projects under this RFQ.

Respondents must document their firm's willingness to accept the contract language, including indemnification and insurance, as indicated in Exhibit A, question 12.

Projects will vary in size from 500 to 5,000 square feet, with construction costs ranging from \$500,000 to \$15,000,000. Some projects may be completed in single phases, while others may be grouped and delivered in multiple construction phases.

Depending on need, it is anticipated that UCSF Health will contract for architectural/engineering services for a three (3) year period with two (2) three (3) year options to renew. Selection of any consultant does not guarantee that fees of any particular value will be expended. This RFQ does not obligate UCSF Health to award any work, and the University explicitly reserves the right to award all, none, or any part of the services described in this RFQ.

Please contact Rebecca Palm-Song at [Rebecca.palm@ucsf.edu](mailto:Rebecca.palm@ucsf.edu) if you need further information or clarification of the RFQ process.

Responses to the RFQ are due by 2:00 PM, **Tuesday, October 7, 2025.**
